Emergency Department **PROCESS FLOW**

STEP 1

GENERAL ASSESSMENT AND TRIAGING

Upon arrival, patient will be screened for possible COVID-19 symptoms.

The ECS Nurse will take and record your vital signs (e.g., blood pressure, temperature, heart rate, and respiratory rate) and conduct history-taking which will be reviewed by the doctors.

STEP 2

TRIAGE DOCTOR

For quick ordering and assessment

STEP 3

REFERRAL TO THE DOCTOR

You will then be referred to the ECS Doctor on duty

St. Luke's
Medical Center
Global City
We love life.

Emergency Department **PROCESS FLOW**

STEP 4

DOCTOR'S ASSESSMENT

Your patient chart will be reviewed by the ECS Doctor before conducting an actual assessment.

The ECS Doctor will order diagnostic and laboratory tests and/or immediate medications or fluids depending on your condition.

STEP 5

LABORATORY AND DIAGNOSTICS

The nurse or allied health staff will extract blood, take urine samples, or send you to the X-ray laboratory or other imaging tests for laboratory work, as required.

Results will be available within *1-2 hours.

**Availability of results will depend on the number and type of tests ordered by the doctor.*

STEP 6

LABORATORY RESULTS

ECS Doctor will re-evaluate your condition after receiving the complete results.

After the medical assessment, ECS doctor will determine whether you will be admitted to the hospital or will be advised for discharge.

**Test results can be accessed through St. Luke's eHealth Hub.*

Emergency Department **PROCESS FLOW**

STEP 7

STEP 7-A **DISCHARGE**

Charges on diagnostic, laboratory tests, and medication will be finalized by the ECS Nurse and will be forwarded to the Billing Section.

For HMO accounts, this may take a while as we wait for your HMO provider's charging information.

STEP 7-B **ADMISSION**

Our ECS Doctor will coordinate with your attending physician. If you do not have a personal physician, we may refer you to an on-deck physician for your admission.

If there will be additional medical orders from your attending physician, this will be carried out by the ECS Nurse.

ECS Nurse will coordinate with Admissions for room availability and assignment.

The ECS Nurse will endorse patient case to the Admitting Unit, and finalize all the admission papers. Once finalized, this will be reviewed and counterchecked by the shift manager on Duty.

Once everything is settled, you will be accompanied by the ECS Nurse and physically endorse you to the Admitting Unit.
